[SECOND LIST OF HIGHLY HAZARDOUS ACTIVITIES](#)

The 2 lists of highly hazardous activities include the production, processing, transport, storage, use or final disposition of chemical substances when volumes equal or higher than the following reporting quantities are handled:

All activities involving hazardous materials or considered hazardous activities have specific restrictions.

it is very important to check these 2 lists

NOMs = Normas Oficiales Mexicanas = Official Mexican Standards

"ECOL" vs "SEMARNAT"

in the designations of environmental standards - do not be confused by "ECOL" and "SEMARNAT" there is no difference. An agreement was published in the DOF on April 23, 2003 that changes the nomenclature for all environmental NOMs. ECOL was changed to SEMARNAT, but it was only a name change and there is no difference. In older documents you will still see the "ECOL" designation, so look for the NOM as SEMARNAT, if you don't find the "ECOL" designation.
